President's Message

Dear Members,

**Wishing you all
 A VERY HAPPY
 AND PROSPEROUS NEW YEAR OF 2015.**

I am immensely thankful to all Members of Executive Committee and IAMM Members for unanimously electing me as the President of the IAMM. I will try my level best to live up to your expectation to execute my duties as the President in all activities of our association. On behalf of our Office Bearers and Members, I am grateful to Dr.R.K.Maheshwari (Chairman), Dr.Bharti Malhotra (Organizing Secretary) and their active organizing Committee members for excellently organizing the IAMM Conference in the historical city of Jaipur. All of you will agree with me that from the time of landing and departing from Jaipur they looked after us very well and the scientific sessions, gastronomic feasts and social events are unforgettable forever. I congratulate them for the 'Fortful' organization of IAMM conference in Rajasthan.

As one of the Founder Members of the IAMM, I am delighted to see our association growing tremendously for the past 38 years. Now it is time to extend our wing of activities internationally by collaborating with few other Microbiological Societies-mutually inviting the speakers/delegates for the conferences and/or organizing CMEs or Symposia jointly. We should also explore the feasibility of collaboration with IUMS to which our association got affiliated in 1990s. The news about our annual conferences can also be put in the websites of some foreign societies which will bring many delegates from aboard for our meetings.

In spite of having many IAMM Chapters in various states, only few are actively organizing CME programs benefitting PG students and young Microbiologists. Hence I request all state chapters to organize CMEs more frequently. To guide the Microbiologists and Post graduate students, our association should form standing sub-committees (Think-tank) in various branches of Microbiology. The committee Members should be eminent Microbiologists from various parts of India and they should be accessible to any of our Members for advise or guidance in diagnosis, teaching, research and training.

As intentional anthrax outbreak in United states emphasized the important roles of Microbiologists to play and boosted their morale, now the Ebola outbreaks in West Africa also reactivated roles of Microbiologists globally. Any outbreak can occur in any part of our country and we should be prepared to rapidly diagnose the source and the causative agent in order to curtail further spread. Our central and state governments are taking stringent preventive measures with the help of Health Ministries and the ICMR to prevent any possible outbreak of Ebola virus in our country.

I am also doubly happy when I got elected as the President, since the 2015 Conference is going to be held at JIPMER from where I started learning Medical Microbiology under the guidance of stalwarts like Prof.K.B.Sharma and Prof.H.N.Madhavan. I invite all our Members for the 39th IAMM conference at JIPMER, Puducherry and we assure you of memorable events of the conference. Members can feel free to send me their suggestions for further improving the activities of IAMM, Chapters and the annual conferences
